Brazing rods with coating Cat. No. GE41CEB3

Reference: GE41CEB3

Price: 196,10 € Excl. Tax 235,32 € Incl. Tax

Description

Brass-silver brazing rods Ref. GE41CEB3 yellow coated special Soldering !

Soldering involves joining two identical or different metal parts using a brass-based filler metal with a melting point that must be lower than that of the 2 parts to be joined.

The specific advantages of this reference GE41CEB3 include its high mechanical strength, its good capillarity for delicate work and its stripper in the form of a coating.

Our Ref. GE41CEB3 is sold in 1 kilo packs.

This reference GE41CEB3 is recommended for work on tubular constructions,

locksmithing, small mechanical parts, metal furniture and automated workshops.

Like all Express products, this product is available for sale online and can be delivered to you within 72 hours of receipt of payment.
