Long life iron tip 1772

Reference: 1772

Price: 128,35 € Excl. Tax 154,02 € Incl. Tax

Description

Turbo tip, ref. 1772, for roofer soldering irons is specially treated for long life.

The Turbo tip is suitable for very severe conditions (altitude, strong wind, cold) : the flame penetrates into the core of the tip, so that working temperature is reached more quickly.

Express Turbo tips are given a new type of long life treatment, so that they last around 5 times longer than conventional tips.

Their utilisation rules must be strictly observed:

Do not strike

Do not file

Do not overheat

Do not immerse suddenly in cold water... these actions would destroy the tips' unique surface treatment, and you would lose their advantages and efficiency!

Light cleaning with ammoniacal stone, Cat. No. 9641 or Cat. No. 9642 is sufficient.

This reference is sold online and can be delivered within 72 hours of receipt of payment.
