Reference: G5900

Price: 78,90 € Excl. Tax 94,68 € Incl. Tax

Description

Eco-Friendly Thermal Weeder – Cat. No. G5900

The eco-friendly thermal weeder, Ref. G5900, is part of the Galaxy by Express range. Also known as a flame weeder, it is non-toxic and offers long-lasting environmental protection. Highly effective, this truly ecological weed control solution leaves no chance for unwanted growth.

Powerful and efficient, the standalone propane thermal weeder Ref. G5900 features a handle, a 600 mm lance, a 60 mm diameter burner with an output of 70 kW, a 2.5 bar high-pressure propane regulator, a 4.75 m hose, and a support stand. It is particularly well-suited for difficult-to-access areas that require high power and maximum freedom of movement.

Weather-resistant and highly cost-effective, the Ref. G5900 delivers reliable performance

in all conditions.

This model is available from your regular Express distributor and online.
