Tip with long life treatment for roofer soldering iron 1779

Reference: 1779

Price: 149,28 € Excl. Tax 179,14 € Incl. Tax

Description

Turbo tip, ref. 1779, for roofer soldering irons is specially treated for long life

The Turbo tip is suitable for very severe conditions (altitude, strong wind, cold) : the flame penetrates into the core of the tip, so that working temperature is reached more quickly. Express Turbo tips are given a new type of surface treatment, so that they last around 5 times longer than conventional tips.

Their utilisation rules must be strictly observed:

Do not strike

Do not file

Do not overheat

Do not immerse suddenly in cold water...

...these actions would destroy the tips' unique surface treatment, and you would lose their advantages and efficiency!

Light cleaning with ammoniacal stone, Ref. 9641 or Ref. 9642, is sufficient.

This reference is sold online and can be delivered within 72 hours of receipt of payment.
