#### **Description**

With this brand new product designed for roofers working with both vertical-horizontal joints and flat roofs on a single job, the R&D teams at Guilbert Express managed to do something that would have been unimaginable until recently: enable users to switch almost instantly from a short 130 mm neck tube and burner to a long 400 mm neck tube and burner, without having to use any tools.

With just a click, users can change their neck tube and burner whenever they need.

This really is a major improvement that will rapidly become an essential for all manufacturers, as users will particularly appreciate its simplicity and convenience on the job.

This all-new Titan' Express roofing torch pack is comprised of 2 Titane burners Cat. No. 150T and Cat. No. 50T, two neck tubes Cat. No. L400 and Cat. No. L200, a "bi-material" trigger handle Cat. No. 620 with a swivel attachment, a 20-metre hose Cat. No. 963/20S and a 4-bar regulator Cat. No. 684.

You will find this highly original and ever-dependable product online and at your usual Express dealer.
